Vaccine & *deworming* record

The usual puppy plan on top, your dog's real record below. Bring this sheet to every vet visit and ask them to fill in the row.

Los Chihuahuas

Name _____ **Date of birth** _____ **Microchip #** _____

Vet clinic _____ **Vet phone** _____ **Owner** _____

Puppy shot *schedule*

Age	Vaccine	Protects against
6–8 weeks	DHPP	Distemper, adenovirus, parainfluenza, parvovirus
9–11 weeks	DHPP + leptospirosis	The above + lepto (Bordetella if boarding or grooming)
12–14 weeks	DHPP + lepto booster	Same
16 weeks	Final DHPP + rabies	Same + rabies (age set by state law)
6 months	Booster	Covers puppies that didn't respond to the series
Yearly	Lepto, checkup; rabies per law	Core shots every 3 years depending on the product

DEWORMING

- **2 to 8 weeks:** every 2 weeks.
- **2 to 6 months:** monthly.
- **Adult:** every 3 months, or a monthly heartworm preventive that also covers intestinal worms (the norm in the US).
- **Fleas and ticks:** per the product, usually monthly. Never split a large-dog product.

FIRST WALK ON THE GROUND

A week after the final puppy shot, around 17 to 18 weeks. Before that, out in your arms or a carrier.

Follow your vet's plan. This is the most common schedule (WSAVA and AKC guidance), for reference only. Available vaccines and rabies rules vary by state and country, and your vet may adjust the plan to your puppy's health and local risk.

Vaccine *record*

Date	Vaccine	Lot # / sticker	Weight	Next due	Vet / signature

Deworming & parasite *record*

Date	Product	Type: worms · fleas & ticks · heartworm	Weight	Next due
